Title of Abstract (Required) :

(ex.)Molecular mechanism of cardiac hypertrophy induced by hypertension

The number of restriction characters becomes 150 characters. It cannot register, if this number of letters is exceeded.

Abstract Body (Required)

Type your abstract into the box below. You may also paste text processed off-line into the box. Follow the instructions below for specific characters. If you want to include symbols or Greek Letters, type the respective code indicated in the tables at the position where you want to place it, or copy the code and paste it in the position. If you want to use superscripts, subscripts, italics, bold, or underlines, follow the instructions below.

Symbols

(ex) p<0.05 will be displayed as p<0.05.

You Type	<	>	&	"	±	≠
Display	<	>	&	"	±	≠

Greek Letters

(ex) βblocker will be displayed as βblocker.

You Type	α	β	γ	δ	ε	ζ	η	θ	ι	κ	λ

You Type			<I></I>		<U></U>
Effect	superscript	subscript	italics	bold	underline

If you want to start a new line, put
in the front of the sentence.

Enter the body of your abstract. Do not include the title, authors, or institutions. Place the first letter on the left end without a space. The size of box may vary depending on the browser you use. In some cases, it might appear very wide. If you find that inconvenient, add line breaks to your text. These line breaks will be deleted automatically on the transmission. Make your abstract concise to be less than 300 words.
